

## Stabilized Approaches and Winter Flight Operations

Rick Hill, Designated Pilot Examiner, will discuss the various concepts and techniques for flying a stabilized approach in cold weather. As winter approaches, it's time to prepare for safe winter flying. Learn about the elements that make winter flying uniquely different. Rick will guide you through a detailed analysis of technical information you should know.

**Directions:** SGR is located on the west side of Highway 6 South, North of Highway 90A.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
